

Smithtown Christian School
6th Grade Supply List & Directions
2024-2025

One of the greatest challenges students face in middle school years is how to manage increased responsibility. Students go from having one teacher all day long to various teachers throughout the day, each with different expectations. To help make this transition smoother, Smithtown Christian Middle School will continue to use the binder system for the 2024-2025 school year.

Students will be taught how to use this organizational system throughout the school year. We ask that you please provide the following items listed below.

Setting Up the 6th Grade Binder

1. Take out the dividers. Label them as Writing, Math, Science, History, Literature, and Bible.
2. Label the binder with your name
3. Fill up zippered pencil cases with pencils, pens, a highlighter, and your colored pencils. Place it in the front of the binder.
4. Put one thin hole puncher in the front of the binder.
5. Extra supplies should be kept in your locker, unless your teacher tells you otherwise.

Once your schedule is made, place your dividers in the order of your class schedule. Add loose leaf paper into each section of your binder.

Your teachers will work with you to stay organized throughout the year. It is also your job to make sure that you are placing your papers into the correct sections. Great organization leads to success!

***May need to replenish during the year**
