

How to Use Smithtown Christian School's Online Resources

Access the SCS Library OPAC (smithtown.follettdestiny.com)

In order to do a search for books we have in our library, select our school and type in our keywords. You can also do searches for Titles, Authors and Subjects here.

Databases

We have databases available to us that will help you with your research papers.

Gale Cengage Learning (infotrac.galegroup.com/itweb/nysl_li_smithtwc)

Select the link for Gale Cengage, and type in the empirelink for the password. Here you can search through all of the databases, or just a few. Try searching for different keywords or doing an advanced search to narrow down your hits.

NovelNY (www.novelnewyork.org)

Novel NY is a database free for anyone with NY residence. Most computers will prove your residence with your IP address, but you might need your (or your parents') driver's license or non-driver ID card, or your public library card number to access these.

Other Resource Links

These are some other resources that may be great places to look for information.

Bio.com (Biography searches)

biography.com

Google Scholar (reliable sources)

scholar.google.com
